

MAGNETIC CLUTCH BEARINGS (MCB) FOR A/C COMPRESSOR

NSK magnetic clutch bearings (MCB) have a unique design that provides high performance sealing and high moment rigidity to extend bearing life. The thin cross-section double row angular contact ball bearings are produced for magnetic clutch applications: A/C compressors and pulley applications.

DESIGN FEATURES

- › High performance seals
- › High moment rigidity
- › Compact design for restricted spaces
- › High performance grease

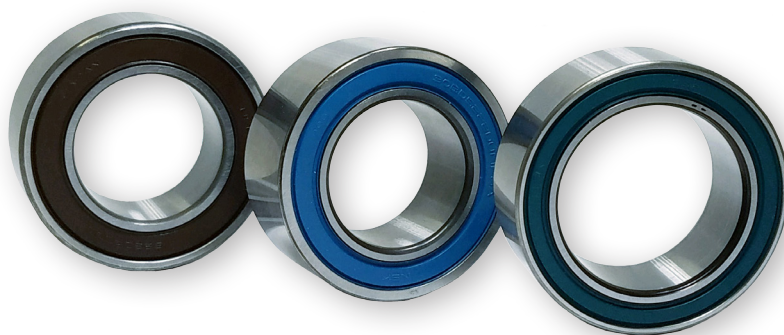

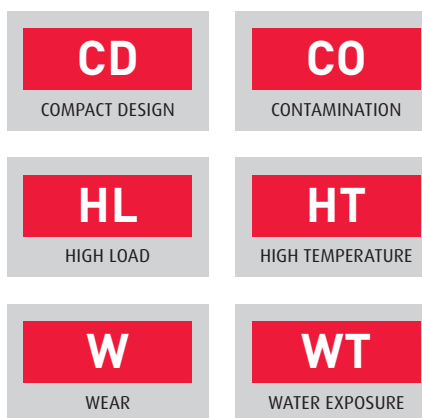

PROVEN BENEFITS

- › Extended Life
- › Water and contamination resistant
- › Ideal for automotive A/C clutch environments
- › Optimized for outer ring rotation and white structure prevention

APPLICATIONS

- › Automotive:
 - A/C compressors
 - Pulley applications
 - Water Pump

CONDITIONS

MAGNETIC CLUTCH BEARINGS (MCB) FOR A/C COMPRESSOR

NSK Part No.	Product Description	ID (mm)	OD (mm)	Width (mm)	Vehicle Make Reference	Compressor Reference
