

NSKHPS Deep Groove Ball Bearings

The new range NSKHPS Deep Groove Ball Bearings offer a wide range of sizes with a high versatility for numerous general-purpose applications. NSKHPS offers a 15% increase in bearing life compared to conventional bearings.

Product Features

- Improved material cleanliness
- 15% increase in bearing life
- Open, sealed or shielded options available

Benefits

- 15% increase in limiting speed
- Improved running accuracy

Condition Description

- High Accuracy
- High Speed

Industries

- Electric Motors
- Fans and Blowers
- Industrial Pumps and Compressors
- Semiconductor
- Steel and Metals

63 03 ZZ CM & NS7S

Description

63	Bearing type and series
03	Bore diameter
ZZ	Shields on both sides
CM	Radial Internal Clearance
&	NSKHPS
NS7S	Grease type / Grease quantity
