

NSKHPS Large Cylindrical Roller Bearings

NSK has further developed its NSKHPS range to include large Cylindrical Roller Bearings (OD 180-400mm). HPS CRB's achieved 2x's longer fatigue life with 23% higher basic load rating compared to conventional products. The permissible misalignment is 4' which is 2x's larger than conventional.

Product Features

- High reliability
- High performance

Benefits

- 2x's longer fatigue life
- 23% higher basic load rating
- Permissible misalignment is 4'

Condition Description

- High Load

Industries

- Paper
- Steel and Metals
