NSK has further developed its NSKHPS range to include large Cylindrical Roller Bearings (OD 180-400mm). HPS CRB's achieved 2x's longer fatigue life with 23% higher basic load rating compared to conventional products. The permissible misalignment is 4° which is 2x's larger than conventional.

Product Features
- High reliability
- High performance

Benefits
- 2x's longer fatigue life
- 23% higher basic load rating
- Permissible misalignment is 4°

Condition Description
- High Load

Industries
- Paper
- Steel and Metals
